Cochlear®

About

Use the Cochlear™ CR310 Remote Control to control the commonly used functions of your Cochlear Nucleus 7 Sound Processor (model number: CP1000).

NOTE

More information and warnings in the *CR310 Remote Control User Guide*.

WARNING

Swallowing Lithium batteries may lead to serious injury or death. If swallowed, immediately go to a hospital emergency room. Keep out of reach of children. Keep in original packaging until ready to use. Dispose of used batteries immediately.

Change battery

Change the battery whenever you see the low battery indicator.

1. Unscrew cover with a Phillips head (crosshead) screwdriver.

2. Remove cover and old battery.

⚠ **CAUTION**
Use ONLY disposable CR2032 or 5004LC 3V standard lithium coin cell batteries in your remote control.
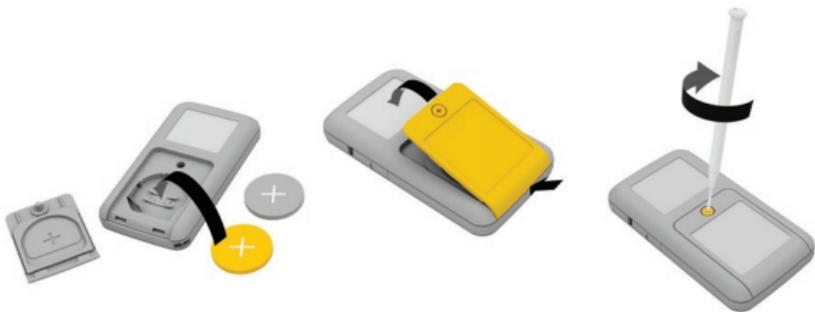

3. Carefully insert new battery, plus "+" side up.

4. Replace cover, bottom edge first.

5. Screw cover back on.

Turn on

Slide the switch up to turn on.

Turn off

Slide the switch
down to turn off.

Pair

Pairing allows two devices to communicate with each other.

When display shows remote control is not paired:

1. Turn your processor and remote control **off**, then **on**.

2. Place the coil on the back of your remote control.

3. Remote control shows pairing in progress.

4. Remote control shows it's paired.

5. If you have a second processor, repeat steps 1–4.
